**Auctioneers:
BRIGHTWELLS**

Easters Court, Leominster, Herefordshire. HR6 0DE

Tel: 01568 611166 Fax: 01568 611802

General Information & Sale Notes

ARRIVAL

Due to the increased number of entries for this sale and the earlier starting time **ALL SHEEP MUST ARRIVE ON SUNDAY 1ST AUGUST BY 5.00PM**

INSPECTION

All sheep will be inspected on Sunday 1st August between 2.00pm and 6.00pm. All sheep must have been paint branded with their lot number prior to inspection.

BIOSECURITY

Intending purchasers are requested to have livestock vehicles cleansed and disinfected.

LICENCES

Vendors are responsible for completing the Standard Movement Document prior to the sale. The Holding Number for Builth Wells Showground is 52 216 8003

MAEDI VISNA

All vendors must ensure that a fully completed MV certificate accompanies their sheep to the sale.

METHOD OF SALE All sheep will be sold in guineas.

CONDITIONS OF SALE

All sheep will be sold subject to the Conditions of Sale of the British Charollais Sheep Society and to the Auctioneer's General Conditions of Sale, which are available in the Auctioneer's office.

PEDIGREE CERTIFICATES

Pedigree certificates relating to the sale will be available from the Auctioneer's office on the day of the sale. See note below with regard to Notified Males.

PEDIGREE STATUS FOR MALES

Would purchasers please note that there are two different status of registration for Charollais rams, Full Pedigree and Birth Notified. All full pedigree rams are marked as such in the catalogue and have been upgraded by the breeder, all other rams have notified status only. No pedigree certificates are issued for notified rams and these rams are not eligible for use

within a pedigree flock until they are upgraded to full pedigree status. If full pedigree status is required then a fee of £20.00 plus VAT is payable to the Society.

SCRAPIE GENOTYPE RESULTS

The Scrapie Genotype results listed in this catalogue are guaranteed to be correct by the person whose name appears as the Vendor in the catalogue. Whilst the Society will make all possible effort to provide purchasers with the correct information, they can in no way be held responsible for any error or omission of information.

SCRAPIE GENOTYPE CERTIFICATES

It is the responsibility of the vendors to take the individual Scrapie Genotype certificates for their sheep with them to the sale and hand them to the purchasers. Please DO NOT hand them in to the auctioneers as they do not wish to be held responsible for their safety.

**Society Inspector
Mr Robert Gregory**

EBV A brief explanation...

Eight week weight	The breeding potential for lamb growth rates from birth to 8 weeks of age.
Mature size	Choosing animals with high figures for this trait will increase mature size.
Litter size	Selection on high EBVs will increase the prolificacy of female replacements.
Maternal ability	This is the maternal component of the 8-week measurement. The higher this figure the better a ram's ewe lambs will perform as mothers (i.e. milking ability).
Scan weight	The breeding potential for lamb growth rates to 21 weeks (age at scanning). The selection of breeding stock with high scan weight EBVs will result in animals with heavier carcasses at a constant fat class or leaner carcasses at a constant age.
Muscle depth	Choosing animals with high muscle depth EBVs will increase lamb muscularity and hence the lean meat content of the carcasse.
Fat depth	Negative values indicate animals with lower fat content which will produce leaner carcasses or which can be taken to higher weights without becoming over-fat.
Lean weight	Breeding value predicting yield of lean meat in the carcasse (EBV only produced for breeds involved in CT scanning).
Fat weight	Breeding value predicting yield of fat in the carcasse (EBV only produced for breeds involved in CT scanning).
Gigot	Breeding value highlighting animals with superior breeding potential for gigot shape (EBV only produced for breeds involved in CT scanning).
FEC	Breeding potential for worm resistance, a negative number being preferable (EBV only produced for breeds involved in FEC sampling).
Index	Highlights superior breeding stock for a specific breeding objective.
