General Information

ARRIVAL All sheep must arrive in the market before 9.00 am on the sale day.

IDENTIFICATION All sheep must have been identified with their individual BCSS identification in accordance with current BCSS rules. All sheep must also have a tag with their UK holding number.

INSPECTION All sheep will be inspected by the Society's Official Inspector before being allowed forward for sale. All sheep must have been paint branded with their lot number prior to arrival in the market.

BIOSECURITY Intending purchasers are requested to have livestock vehicles cleansed and disinfected. Please be aware of current regulations at time of sale.

LICENCES Vendors are responsible for obtaining their movement licences prior to the sale. The Market Holding Number is 22 296 8000

MAEDI VISNA All vendors must ensure that a fully completed MV certificate accompanies their sheep to the sale.

METHOD OF SALE All sheep will be sold in guineas.

CONDITIONS OF SALE All sheep will be sold subject to the Conditions of Sale of the British Charollais Sheep Society and to the Auctioneer's General Conditions of Sale, which are available in the Auctioneer's office.

SCANNING RESULTS All ewes will have been scanned and the results are either printed in the catalogue or will be available on sale day. This in no way guarantees the number of lambs at birth. If any female sheep which is described in the catalogue or at the time of sale as being "scanned in lamb" or in lamb proves not to have been in lamb at the time of sale and within 7 days after the day of sale the Purchaser gives written notice to the auctioneers of his intention to return the animal supported by a veterinary surgeon's certificate that such sheep has proved not to have been in lamb then the purchaser may return such sheep to the vendor.

PEDIGREE CERTIFICATES & SCRAPIE GENOTYPE CERTIFICATE Pedigree Certificates will be available at the Auction Mart Office on the day of the sale, together with Scrapie Genotype Certificates. All sheep in the sale are Full Pedigree Registered.

SCRAPIE GENOTYPE RESULTS The Scrapie Genotype results listed in this catalogue are guaranteed to be correct by the person whose name appears as the Vendor in the catalogue. Whilst the Society will make all possible effort to provide purchasers with the correct information, neither they nor the auctioneers can in any way be held responsible for any error or omission of information.

All in-lamb ewes will be scanned on the day of the sale

EBV	A brief explanation
Eight Week Weight	The breeding potential for lamb growth rates from birth to 8 weeks of age.
Scan Weight	Choosing animals with high figures for this trait will increase mature size.
Muscle depth	Choosing animals with high muscle depth EBVs will increase lamb muscularity and hence the lean meat content of the carcase.
Fat Depth	Negative values indicate animals with lower fat content which will produce leaner carcases or which can be taken to higher weights without becoming over-fat.
Gigot	Breeding value highlighting animals with superior breeding potential for gigot shape (EBV only produced for breeds involved in CT scanning).
Index	Highlights superior breeding stock for a specific breeding objective.

LOT 3 - EMPTY LOT

G C & C J WATSON (SULWOOD)

Geoff and I are proud to offer for sale six of our best shearling ewes. Last year we were honoured to win the East of England Region Flock Competition Champion Flock after 25 years of breeding. These shearlings are from some of our best bloodlines and have been brought on naturally.

*The Service sires **Sulwood Rooster Booster (16YST00635)** is the homebred son on Maerdy Nomad, who was bought for his topline and tight skin. He won 2 Interbreeds for us. His dam is Sulwood Ladybird - a very successful show sheep who won numerous breed and interbreed championships. She has bred four stock rams. Rooster on his first outing as a shearling ram won breed and reserve interbreed champion at Suffolk County Show and continued to win through 2017. **Cannahars Rocket Fuel (16KF00940)** – bought last autumn for his width and power and we hope he will click well with our ewes. All these shearling ewes have great top lines, skins and conformation and we are sure they will look well and perform well in any flock.*

MESSRS J & S WILLIAMS (HONEYHILL)

We reluctantly offer for sale our breeding females due to a change in circumstances resulting in a change of farm management.

These females are well balanced smart sheep and have been managed on an entirely grass system, even through this difficult summer. They all have excellent bloodlines, most of which lead back to Arwyn Thomas' original Arjane breeding.

All ewes have been running with Hyde Terminator since 10th August. This ram lamb is a son of Dalby Super Trooper, purchased for £3,500 at Worcester Premier Sale as a lamb. Super Trooper is ranked third highest index breeding ram in the country this year. Terminator himself is within the top 10% of the breed.

We have had a good shearling ram trade this year at market and off the farm as we have aimed to produce quality rams for our commercial customers. Customers from previous years have feedback to us that they have been very pleased with their lambs.

These females have not been dressed or trimmed as they have come straight off the field. They are good doers and easily fleshed on a low input system.

We have retained the male and female lambs from 2018 and they will come to market next year.

We wish you luck and hope that these ewes go on and do well for their purchasers.

Non-Monitored and Untested Ewes
