### BRIEF DESCRIPTION OF THE FLOCK

We have been breeding Charollais since 1981. Our main breeding focus is to concentrate on the excellent commercial qualities of the Charollais breed - easy lambing, lots of vigour, excellent growth rates, great length, natural carcase and tight skins. We also select for rams with good head cover which means the progeny of our rams have the ability to thrive in cold N.E Scotland conditions.

The strength of genetics in our two Charollais flocks (Logie Durno and Loanhead) has been proven over the last few years with great success in both the show and sale rings. We had the top price at the breed Premier sale four years running 2010-2013. We also starting showing at the Royal Welsh in 2010 and have had great success winning breed Champion 3 out of the 5 years and winning the sheep Champion of Champions in 2012 and 2013. In 2012 we also won the Interbreed pair and group of three.

We have exported a number of times in the past few years to various countries and we are confident with filling out the relevant paperwork ensuring the process runs smoothly. We are also happy to welcome visitors to view the flock and very easy to get to as we are located less than 20 minutes from Aberdeen Airport.
