General Information

ARRIVAL All sheep must arrive in the market before 9.00 am on the sale day.

IDENTIFICATION All sheep must have been identified with their individual BCSS identification in accordance with current BCSS rules. All sheep must also have a tag with their UK holding number.

INSPECTION All sheep will be inspected by the Society's Official Inspector before being allowed forward for sale. All sheep must have been paint branded with their lot number prior to arrival in the market.

BIOSECURITY Intending purchasers are requested to have livestock vehicles cleansed and disinfected. Please be aware of current regulations at time of sale.

LICENCES Vendors are responsible for obtaining their movement licences prior to the sale. The Market Holding Number is 22 296 8000

MAEDI VISNA All vendors must ensure that a fully completed MV certificate accompanies their sheep to the sale.

METHOD OF SALE All sheep will be sold in guineas.

CONDITIONS OF SALE All sheep will be sold subject to the Conditions of Sale of the British Charollais Sheep Society and to the Auctioneer's General Conditions of Sale, which are available in the Auctioneer's office.

SCANNING RESULTS All ewes will have been scanned and the results are either printed in the catalogue or will be available on sale day. This in no way guarantees the number of lambs at birth. If any female sheep which is described in the catalogue or at the time of sale as being "scanned in lamb" or in lamb proves not to have been in lamb at the time of sale and within 7 days after the day of sale the Purchaser gives written notice to the auctioneers of his intention to return the animal supported by a veterinary surgeon's certificate that such sheep has proved not to have been in lamb then the purchaser may return such sheep to the vendor.

PEDIGREE CERTIFICATES & SCRAPIE GENOTYPE CERTIFICATE Pedigree Certificates will be available at the Auction Mart Office on the day of the sale, together with Scrapie Genotype Certificates. All sheep in the sale are Full Pedigree Registered.

SCRAPIE GENOTYPE RESULTS The Scrapie Genotype results listed in this catalogue are guaranteed to be correct by the person whose name appears as the Vendor in the catalogue. Whilst the Society will make all possible effort to provide purchasers with the correct information, neither they nor the auctioneers can in any way be held responsible for any error or omission of information.

**All in-lamb ewes will be scanned on the day
of the sale**

EBV	A brief explanation
Eight Week Weight	The breeding potential for lamb growth rates from birth to 8 weeks of age.
Scan Weight	Choosing animals with high figures for this trait will increase mature size.
Muscle depth	Choosing animals with high muscle depth EBVs will increase lamb muscularity and hence the lean meat content of the carcase.
Fat Depth	Negative values indicate animals with lower fat content which will produce leaner carcases or which can be taken to higher weights without becoming over-fat.
Gigot	Breeding value highlighting animals with superior breeding potential for gigot shape (EBV only produced for breeds involved in CT scanning).
Index	Highlights superior breeding stock for a specific breeding objective.

MR THOMAS MAWER (KELBY)

*We are pleased to be able to support the Eastern Region female Sale at Melton Mowbray. Sire of the females offered is Logie Durno Maverick who was Male Champion at both Lincoln and Norfolk Show in 2014. He was the sire to the Eastern Region Champion Shearling ewes in 2016. The service sire **Castellau Rockafella** has sired rams up to 1,200gns this year. Over the last few years the Kelby flock has exported over 40 females and 10 rams to Germany. The flock has been Region 4 Champion flock 5 times in the last 6 years. All ewes have been vaccinated with Toxovax and on the Heptavac P System.*

MR KENTON FOSTER (FOSTERS)

This year's consignment are all in the Heptavac P+ system, they have been giving LA cydectin so protected against scab, wormed and have had a fluke drench. We have tried the mineral bolus this year in July for iodine selenium and cobalt and this lasts until the start of January. Except the show shearling nothing has been fed since weaning and have been running on grass and 8 weeks on Tyfon.

SERVICE SIREs: **16VBB00354 - ARR/ARR** – very tall and long stamping a whiter head on lambs with a tight skin. **16ZKT01736 - ARR/ARR** – Bought for his classy looks and wide easily fleshed loin. Has been shown 4 times since serving ewes and been placed 1st at each show and also reserve champion at Westmorland County Show 2017.

15XPR03235 - ARR/ARR – This lad is doing a great job for our flock, very long level top line, with very tight skin and rock hard gigots. His best ewe lamb was 3rd at Great Yorkshire show this year and she has won her class in the 3 shows she has been to.

15DG05218 - ARR/ARR – this ram isn't the biggest but has great width of loin and hard gigot.

*Founded in 1987 the Wolston Flock has always put great importance on quality, correctness and ease of management. The number of flock ewes is restricted to 50 by means of a rigorous culling policy. The flock has been Signet Recorded for over 20 years and this, with successes in the show ring, has helped to maintain consistent improvement. The flock has won the Central Region Flock Competition on eight occasions. The ewes for sale represent the best families in the flock and with reports of past purchases we are confident that this year's selection will give satisfaction to prospective purchasers. The flock is on the Heptavac P system and all ewes have been vaccinated against Toxoplasmosis. **Loaningfoot Rooster Booster 16XZR00271** - Purchased at last year's premier sale. He was 2nd prize ram lamb at the Royal Highland show and his sire Rhaeadr Orlando was Reserve Male Champion at the same show. On the female side with Riverdale Noble and Crogham Hannibal II he has great depth of breeding. Rooster has grown into a powerful correct ram.*

Shearling Ewes – Not Scrapie Tested

MR EDWARD MIDDLETON (ASHBY)

I have the pleasure of offering 5 in-lamb shearling ewes for the sale at Melton Mowbray. They are all very well bred sheep showing great potential for the future. They have been wormed and on the Heptavac P System. They have been very commercially run and not pushed for the sale. Definitely worth a look! I look forward to seeing you at Melton Mowbray!

Dispersal Sale of the Regen Flock

MR D C GREEN (REGEN)

The Regen flock was established in 1989 with two ewes purchased from J & A Barber and Dai Morris (*see photograph inside front cover*). I have always concentrated on the breeder first. In 2002 **Regen Bono** (who sold to Tim Prichard for 2,400gns), was the Premier Champion. In **2003** Regen Cracker sold to Blair Duffton for 2,300gns. Over the years, I have had considerable success in the show ring, but too many to mention here.

I have always recorded and believe it to be a big part of the picture to producing good all round fleshy sheep, but to keep looks and style.

The time has now come to finish. It will be a sad day for me, but a good day for all purchasers old and new.

One of the most influential ewes in my flock was **Regen Heather** (0YCP7040). She was sold to Charles Sercombe, but I then purchased her back into my flock at their anniversary sale in 2011. Sadly she died last year, but you will see a lot of her progeny in the sale today.

Regen Sires Used

16DG06349 – Foulrice Regis (*see photograph inside back cover*) – Purchased last year for 3,200gns, we have been really pleased with Regis, who has grown into a large, well fleshed, excellent skinned ram. More importantly he is breeding really well, having sired first prize ram lambs on the show circuit and sought after ram lambs in the sale ring. At the premier sale his progeny made up 3,500gns (Dalby Super Trooper sold to Hyde) and 3 lambs averaged 2,100gns.

16SU00632 – Hyde Rigoletto (*see photograph inside back cover*) – Purchased privately from Stuart Dunkley last year, Rigoletto was the pick of his February ET programme, being by Wedderburn Peuleus and out of his best Grimston Jefferson daughters. He has developed into a large well-fleshed and correct ram who was good enough to win 1st prize at Derby Show on his only visit to the show ring. Although, only lightly used on some late lambers, we have been impressed enough with his progeny to use him again this year and look forward to the results.

14ZWA03356 – Micklehills Odyssey – Top quality stock ram bred to perform, who has sired may high priced and show winning progeny. Odyssey himself was numerous 1st prizes as a lamb and was male champion at Notts as a shearling. This year he sired Dalby Rose, sold for 1,050gns at the “Super Stars Sale”.

Ewes

All ewes on the Heptavac P+ system, wormed, multi-vitamin and Toxovaxed. All ewes believed to be ARR/ARR (but have not all been tested) and all the rams that have been used are also ARR/ARR only. Scanning details on the day. Ewes served by natural service on 9th August and running with the ram until the 15th September (Hyde Rigoletto (16SU00632). See Ram details.
