# General Information

The Sale will commence at 11.30 am.

The sale is held under the auspices of the BRITISH CHAROLLAIS SHEEP SOCIETY and all sheep will be sold subject to the Rules and Conditions of the Society. Copies are available from the Society or Auctioneers. All sheep will be sold in guineas (105 pence) and strictly in catalogue order. All sheep to be sold singly.

**LICENSES** Vendors are responsible for completing their Standard Movement Documents prior to the sale. The Market Holding Number is 17 521 8000-01

**HEALTH** The sheep are from a Maedi Visna Accredited flock registered with the SAC Sheep & Goat Health Scheme. The Flock is not Scrapie Monitored - but all sheep have been individually scrapie tested.

All sheep will have been subject to INSPECTION by an official Society Inspector

**SCANNING RESULTS** All ewes will be scanned with results available on the day of the sale or printed in the catalogue. This in no way guarantees the number of lambs at birth. If any female sheep which is described in the catalogue or at the time of sale as being "scanned in lamb" or "in lamb" proves not to have been in lamb at the time of sale and within 7 days after the day of sale the Purchaser gives written notice to the auctioneers of his intention to return the animal supported by a veterinary surgeon's certificate that such sheep has proved not to have been in lamb then the purchaser may return such sheep to the vendor. Ewes may also be sold as 'Running with the Ram' where no guarantee of pregnancy is given. Ewe lambs are sold as empty.

## **PEDIGREE CERTIFICATES & SCRAPIE GENOTYPE CERTIFICATES**

Pedigree Certificates will be available at the Auction Mart Office on the day of the sale. All females are Full Pedigree Registered.

## **EXPORT ELIGIBILITY**

The Bould Flock is eligible for export to Northern Ireland.

**BIO-SECURITY** Current DEFRA regulations are to be observed.

The breeding information, comments and photographs for sheep in this catalogue have been supplied by the vendor. While every effort has been made, the Society cannot be held responsible for any inaccuracies or omissions.

# Introduction

First I would like to say what a pleasure it has been to be part of a 36 year journey breeding Charollais sheep and of the many friends we have made along the way and we wish the breed success in the future.

The 'CJ' flock was founded in 1981 with the purchase of 2 ewes and 1 ram lamb from France. They were the first Charollais Sheep in Derbyshire at that time.

In May of 1982 we entered our first show at Derby and the Judge was Mr Ronald Black of Colleise. He put our ram above the Texel to win the class, a sheep breeder watching the judging that day who was very impressed and asked about the Charollais breed was Mr David Gardiner, who went on to have a very successful career with Charollais sheep winning shows in the late 1980's and 90's.

In 1983 we attended our first Charollais Premier Sale at Banbury, selling the top priced shearling for 500 gns to Scotland. That year we moved to Shilton in Oxfordshire. The following year we sold another shearling ram for 650 gns to Mr Philip Asford of Norfolk, this ram went on to have great success in his flock.

It was in 1987 that we moved to Bould Farm and bought our first ram lamb off the Ingram family at the Premier Sale. The following year we bred **Bould First Choice** who went on to stand first at the RWAS, first at the Premier Sale and sold for 3,550 gns to Mr Robert Gregory, Mr John Sherratt (Pankymore Prelude fame) and Mr Lionel Organ. The following year Bould First Choice went on to win many shows and sired a ram lamb for the Gregory family selling for 3,000 gns.

In 1989 the sister of First Choice won champion female and was part of the winning group of 3 females at the RWAS. During the following years showing was put on hold to concentrate on farm improvements and also serious drought conditions made things difficult for us.

In 1990 we bought a good young lamb at Builth from Mary Gittens (who we named Hunter), he was sired by the great show ram Hunter bred by David Gardiner out of a good French ewe. This ram proved to be a great breeder of flesh and hardiness and we sold him at Builth early sale for 1,000 gns to Roger Jukes. That year we also sold a son of his to the Barbers for 1,000 gns at Banbury Sale.

Another of his sons was Interbreed Champion at the Shropshire & West Mid show for the Yeats family, beating John Sherratt's Suffolk who would later sell at Edinburgh for 22,000 gns, Pankymore Prelude.

1995 we bred a big powerful son of Hunter from a First Choice sister who went on to win the shearling class at the Premier Sale beating Envoy, this was **Bould Lomo** who was sold to the McKenzie family in the Black Isle for 1,600 gns.

The next good ram to be bought was from the Tullochs, **Rutland Duke** who was 120 kgs at the end of July, he was used for 2 season, was 2nd at the RWAS and sold at the Premier Sale to the Blandford family of Hereford. He won the heaviest ram there at 150 kgs, he was solid meat.

In 1996 Andrew had the pleasure of judging the Irish Premier Sale at Tullow which was a great honour. 1997 - we won the Three Counties Show but not with Charollais but a Suffolk, this was the last time we showed! In 1998 our local market at Banbury closed so we made the decision to sell the rams from home which has proved a great success.

In 2000 Andrew and Kate left Bould to run a hotel in Taunton and then in 2002 they moved to France where they still farm today.

2004 - Andrew sourced semen from some of the top Charollais flocks in France for us and the Tilton Flock, this would result in produced **Bould Flash**

**Harry** (picture right) who was sold to the Geldard family at the Premier sale for 3,600 gns. Alan Thomas's Tilton flock also had great success with a son of B4 3043 selling to the Maidens. Bould Flash Harry went on to breed a first prize MLC lamb at the 2005 Royal Show and also be a part of the Champion charollais Flock of GB for the Geldard Family.

We bought a son of Flash Harry at the 2006 Premier Sale, he was the longest ram we had purchased at Bould, he also had good head cover, he was **Wraycastle Granger** and he put a good stamp on the Bould Flock for the next few years.

In 2010 we picked out a cracking fleshy ram in the show ring at the RWAS, he was placed 2nd in his class and it was good fortune for us that we were able to purchase this good ram, **Bronallt Buster**, who has proved an exceptional

addition to the flock passing on his good top line and fleshiness, his index is 317.

In 2011 we went back to the Ingrams and purchased **Logie Durno Klaymore**, (picture right) with an index of 405 and top recorded ram at the Premier Sale. Klaymore and Bronallt Buster sired the ewes who won the Flock Competition in 2013 Central Region, Overall Champion Flock and South Champion Flock and Overall Champion Flock in the Midlands in 2014.

In 2014 we joined forces with Alan Thomas to buy **Sheldon On the Ball**, a very high index lamb (360). He has gone on to breed very well in both flocks. We had a ram selected for RamCompare and we are waiting to see the results from him. 2015 - we purchased another good deep bodied fleshy ram with a high index. **Castellau Paddy Power** who has been running with some of the ewes after AI.

In 2016 we used French semen again, H13 8022 (used with great success by the Marwood family) who is still the best AI ram in France (sired by B4 3043) and the J17 8001. 2017 - lambs sired by the above rams all scanned well. We have sold ram lambs to pedigree flocks this year, the ewe lambs we think are as good as we have ever bred.

Also this year we bought another ram from the Ingram family, Reserve Champion at the Premier Sale, **Loanhead Ringleader** and have used him by AI. He is a tremendous ram and we will be sad not to see his offspring at Bould next year. They should be very exciting prospects for showing next year.

We have always tried to produce sheep with good flesh and skins and haven't compromised when buying fleshy breeding rams with good conformation over sheep that need feeding to be good sheep.

This is a truly **Genuine Pedigree Dispersal Sale** at the end of 36 years of careful breeding and we wish every buyer the best of luck.

### EBV A brief explanation...

Eight week weight	The breeding potential for lamb growth rates from birth to 8 weeks of age.
Mature size	Choosing animals with high figures for this trait will increase mature age.
Litter size	Selection on high EBVs will increase the prolificacy of female replacements.
Maternal ability	This is the maternal component of the 8-week measurement. The higher this figure the better a ram's ewe lambs will perform as mothers (i.e. milking ability).
Scan weight	The breeding potential for lamb growth rates to 21 weeks (age at scanning). The selection of breeding stock with high scan weight EBVs will result in animals with heavier carcasses at a constant fat class or leaner carcasses at a constant age.
Muscle depth	Choosing animals with high muscle depth EBVs will increase lamb muscularity and hence the lean meat content of the carcass.
Fat depth	Negative values indicate animals with lower fat content which will produce leaner carcasses or which can be taken to higher weights without becoming over-fat.
Lean weight	Breeding value predicting yield of lean meat in the carcass (EBV only produced for breeds involved in CT scanning).
Fat weight	Breeding value predicting yield of fat in the carcass (EBV only produced for breeds involved in CT scanning).
Gigot	Breeding value highlighting animals with superior breeding potential for gigot shape (EBV only produced for breeds involved in CT scanning).
FEC	Breeding potential for worm resistance, a negative number being preferable (EBV only produced for breeds involved in FEC sampling).
Index	Highlights superior breeding stock for a specific breeding objective.
