The Society is delighted that we are able in this difficult year to mount a live sale of the very best of the breed at Worcester Market on the 11th July.

Our thanks go to all the staff at McCartneys who have made this possible. But please remember that this is a sale held under strict Covid 19 regulations and we ask for your co-operation in ensuring these conditions are all adhered to. It is for your own safety and for the continuance of trading in our livestock markets.

All sheep will have been tested for scrapie genotype and will be R1 status. We are not able to run an inspection this year, so please as buyers make sure you check out stock before purchasing.

If you are unable or do not wish to attend the market, then please place a bid with the auctioneers, your regional chairman or Carroll Barber who will all be pleased to help you.

If you have any queries with regard to the sale, then please contact the office or James Amphlett at McCartneys.

Special instructions for 2020

- **Potential purchasers must register with McCartneys prior to the sale and again upon entry to the market.**
- Please remember that purchaser spaces will be limited, so we ask for one person / purchasing farm to attend.
- 2m social distancing must be maintained at ALL times
- Disposable gloves will be available in the market for your use
- Please follow instructions from market staff
- There will be no show classes this year
- There will be no inspection of stock this year. So we ask purchasers to check all animals carefully before purchase. Any problems must be reported to the auctioneers before leaving the market.
- The sale will be live-streamed by McCartneys and maybe viewed on www.mccartneys.co.uk
- The auctioneers have stipulated that no videos are to be taken in the market.
- If you are unable or do not wish to attend the market, but would like to bid on animal/s then the auctioneers will faithfully execute purchase for buyers. Please contact them and put your instructions in writing 48 hours in advance of the sale. Alternatively you can arrange to make a telephone bid during the sale.
- McCartneys will be streaming the sale live and have requested that no additional videoing takes place in the market.

General Information

LOCATION - The sale will be held at Worcester Livestock Market, The Heath Meadow, Nunnery Way, Worcester WR4 0SQ.

MOVEMENT LICENSES - All vendors must hand in a completed General Movement License and also a current Sheep & Goat Health Scheme certificate. The market holding number is 17 521 8000-01. Intending purchasers should have their CPH number ready to complete the correct movement license before departure from the market.

MINIMUM SELLING PRICES - General minimum selling prices will apply to all sales held under the auspices of the British Charollais Sheep Society. The minimum selling prices for the Worcester Premier Sale are as shown below:-
Shearling Rams - 500 gns, Ram lambs - 400 gns

BIOSECURITY - Intending purchasers are requested to have livestock vehicles cleansed and disinfected. Vendors will be required to wash out their livestock vehicles after unloading.

SCRAPIE GENOTYPE RESULTS - All sheep in the sale have been tested to establish their scrapie genotype and are all Class 1 (ARR/ARR). Whilst the Society will make all possible effort to provide purchasers with the correct information, they can in no way be held responsible for any error or omission of information. If breeders wish for more information on scrapie genotyping and their use within a breeding programme, they should contact the office.

MAEDI VISNA - All sheep are from Maedi Visna Accredited flocks. Prospective purchasers wishing to join the scheme should consult the Sheep & Goat Health Schemes, P.O. Box 5557, Inverness, IV2 4YT - Tel: 01463 411103 before the arrival of sheep onto their premises.

SCRAPIE MONITORED FLOCKS - A number of flocks in the sale are Scrapie Monitored, these are marked in the list of vendors. A reminder for Scrapie Monitored Flocks if you wish to add sheep to your flock they either :

- a) must come from another SMS flocks OR
- b) be tested ARR/ARR. Although all animals in the sale are ARR/ARR some may require an additional blood test taken by a veterinary surgeon and the analysis completed by SAC in order to comply.

PEDIGREE CERTIFICATES - Pedigree certificates together with certificates for scrapie genotype will be available from the Auctioneer's office on the day of the sale. All animals in the sale are Full Pedigree Registered.

SETTLEMENT & CLEARANCE OF STOCK - Settlement in full is due to the market auctioneers, Messrs McCartneys Ltd, immediately at the close of sale.

SUBSTITUTE ENTRIES

Substitute entries may be offered for sale. A separate catalogue listing these animals will be available on sale day. Any such sheep will be marked with a red dot next to their lot number.

METHOD AND ORDER OF SALE

All stock will be sold in guineas (105 pence) and strictly in catalogue order unless any alteration is announced by the auctioneers.

CONDITIONS OF SALE

The Sale is held subject to the Society's Auction Rules and Conditions of Sale and to the Auctioneer's General Conditions of Sale.

Part of these conditions is a FERTILITY GUARANTEE for rams.

(4) FERTILITY GUARANTEES

(a) Rams and Ram Lambs

(i) All rams and ram lambs are warranted by the seller capable of natural and effective service within three calendar months from the date of the sale. If at the expiry (the male fertility guarantee period) the ram or ram lamb has failed to prove himself capable of natural and effective service and a veterinary surgeon's certificate is lodged within 14 days from the date of expiry of the male fertility guarantee period with the auctioneers specifying that the ram is so incapable and further that the veterinary surgeon has inspected the buyer's breeding ewes and found them to be in normal responsible breeding condition and not in the aforementioned incapacity then the buyer may return the animal to the seller.

(ii) The animal shall be deemed incapable of natural and effective service if it fails to make at least one ewe pregnant during the male guarantee period under natural breeding conditions and is so certified as being incapable by veterinary surgeons certificate aforementioned. The Society recommends that the veterinary surgeon follows the "Guidelines on the examination of rams for breeding" and also the "SVS Examination Certificate" as issued by the Sheep Veterinary Society.

(iii) The buyer shall throughout the male guarantee period give the animal full and sufficient opportunity to prove that he is capable of natural and effective service.

(iv) Ewes which have been "sponged" and or treated with hormone treatment to induce or synchronise ovulation shall not for the purpose of this guarantee be "in normal condition".

Signet Performance Recording New Charollais Benchmark for 2020

Rebasing - EBVs and indexes have been rebased and are expressed relative to the average animal in 2010.

Weight Adjusted Traits - Please note that all traits marked * are now weight adjusted. This means that EBVs are a better prediction of carcass composition at a fixed weight. Example A ram with a muscle depth EBV of +2mm is estimated to produce lambs with loin depths 1mm deeper at a fixed weight than a ram with an EBV of 0.

Dam: Foulrice (18DG08004)

DS: Hyde Radio5Live (16SU00606)

Hyde Vespasian has that great combination of stylish good looks, breed leading performance figures and an impeccable pedigree. He is by Edstaston Tulloch 18TG00737 (senior stock sire in the Dalby Flock), who is a massive, powerful son of the 25,000gns Knockin Shockin with an EBV of 293 and a top 1% scan weight EBV and who sired lambs to 2,600gns at the 2019 Premier Sale. He is out of Foulrice Tootsie (*pictured left*) 18DG08004 purchased jointly with Charles Sercombe for 2,650gns at the Foulrice celebration sale in 2018. She is a classic Charollais with great style and simply outstanding muscling, which she has passed on to her progeny (her 7 ET ram lambs averaged 40.2mm of eye muscle).

Hyde Vespasian has an EBV of 318 (top 5%) with a muscle depth EBV of 6.31 (top 1%). **HOWEVER**, he has been back fat scanned since these figures were produced and he scanned with a massive 43.5mm of eye muscle and weighed an impressive 84.5kg - so it is quite possible that his EBVs will go up when the updated figures are available from the last week of June.
