Signet Performance Recording New Charollais Benchmark for 2020

Rebasing - EBVs and indexes have been rebased and are expressed relative to the average animal in 2010.

Weight Adjusted Traits - Please note that all traits marked * are now weight adjusted. This means that EBVs are a better prediction of carcass composition at a fixed weight. Example A ram with a muscle depth EBV of +2mm is estimated to produce lambs with loin depths 1mm deeper at a fixed weight than a ram with an EBV of 0.

FOSTERS CHAROLLAIS

We are offering all but 2 of our early shearlings for sale. Included are gimmers that did really well in the show ring themselves or from our top breeding families. With last year's successful sale and the current situation these have had no concentrate and will just get some sugar beet prior to sale. They have all been vaccinated with toxo and cvac(enzo) and all on hept p system. As served later we will scan nearer to sale .

We have used our own rams as 19WTZ01005 and 19WTZ01011 were used successfully last year and the ram lambs we have used have everything to make excellent stock rams.

Any enquiries of viewings welcome and we will try and get some pictures nearer to sale

GALTRES FLOCK

Service Sires

Thackwood Upland Warrior (19GU04214) was purchased privately in June this year. He is a tremendous conformation ram with power, scope and a huge gigit. He is also a very hardy type, with a very tight skin.

19WZT04662 was purchased at Builth last year for his exceptional length, good backend and tight skin. He was used in October last year and his first lot of March born lambs are looking very promising.

Sires

Banc Pioneer 15XXB01124 was purchased from Builth as a shearling, again for his amazing fleshing. His rams have consistently sold well and shown well at sales in the North of England and Builth, including last year's champion ram at the Charollais sale at Skipton.

Hundalee Sandor 17XMP04086 - again purchased as a shearling at Builth. He has consistently bred well. The first year for selling his progeny has seen rams going pedigree to 3 flocks.

FOULRICE FLOCK

Two excellent flock ewes both sired by Dalby Mount Aloe who put shape and stretch into his progeny complemented by being in lamb to Galtres Upper Class 19ZKT03065 an outstanding ram for shape and muscle.

Shearling ewes - our annual top drawer selection of gimmers which will be an asset to any flock. We consistently select stock sires which not only put shape into their offspring but also produce good milky ewes which is the starting point for every lamb's performance. Therefore, it will be no surprise to you that five of these gimmers are in the top 5% for maternal index and three are in the top 10% terminal sire index and two in the top 5%.

Again all are scanned in lamb to Galtres Upper Class 19ZKT03065

Service Sire

Galtres Upper Class (19ZKT03065) (*pictured below*) purchased for his extreme shape and muscling along with tight skin and correctness. The depth of breeding behind this ram will make him a real asset to the Foulrice flock.
