INTRODUCTION

This will be the 8th Females with Figures Sale at Worcester market and hopefully a more normal sale than the “ Timed On-line Auction ” version last year. We are very pleased to be able to hold the sale alongside Charles and Helen Sercombe’s Dalby Coral Celebration Sale under the collective banner of “The Charollais Collection Sale”

In order not to overload the market we have deliberately kept the number of females forward at our sale to 25 but we have all picked some of the very best to sell. We are joined again by consignments from Chris Crowther’s Dudston flock and Grant Pink’s Bicton flock.

This is a great time of year to be adding breeding ewes to your flock in good time for them to settle in before sponging in late June and AI in early July ready for lambs in December. It allows you to select the ram you want to use on them and choose the AI or tugging date to fit in with your own plans.

All the sheep for sale are from flocks that record with Signet Sheepbreeder. All have their Estimated Breeding Values (EBV) displayed in the catalogue with their Pedigree information to enable you to make a selection based on all the factors which are important for your flock. Basic information on EBVs and the Benchmark Charollais data is shown overleaf - more detail is available on signetdata.com.

Weight records and scanning information are valuable additional tools when selecting breeding stock. They don’t replace your own judgement in looking at an animal but they provide measurements that your eyes don’t see. The overall EBVs for each trait give comparisons between different sheep based on their own performance and that of their breeding relations regardless of how well they have been fed or prepared for sale.

If you want evidence that buying sheep with good EBVs is worthwhile then have a look at the AHDB ChazCompare report which you can find at <https://signetdata.com/technical/ramcompare/case-studies/>

Our auctioneers are Clive Roads and James Amphlett of McCartneys who will answer any questions you have. Their phone number is 01905 769770.

GENERAL INFORMATION

The sale is held under the auspices of the British Charollais Sheep Society and all sheep will be sold subject to the Rules and Conditions of the Society. Copies are available from the Society or Auctioneers and will be displayed at the sale. All sheep will be sold in £ sterling (plus a 5% buyers premium (+ VAT)). All sheep to be sold singly.

ALL FEMALES offered for sale are warranted not to be in lamb. Should the situation arise that a ewe proves to have been in-lamb at the time of the sale, then If within fourteen weeks after the day of sale a female sheep warranted not in lamb as aforesaid proves to be in lamb and within sixteen weeks after the day of sale the purchaser gives to the auctioneers written notice supported by a certificate signed by a veterinary surgeon such female sheep has been proved to have been in lamb then if the sheep lambs naturally at a date which proves it to have been in lamb at the date of sale either the purchaser may return the sheep and her lamb if any to the Vendor or at the sole option of the Purchaser the Vendor shall pay to the Purchaser as and for ascertained and agreed liquidation damages to cover all expenses depreciation in value and other damages whatsoever a sum equal to 25% of the purchase price of the sheep.

The sheep are from **MAEDI VISNA ACCREDITED FLOCKS** registered with the SAC Sheep & Goat Health Scheme.

PEDIGREE CERTIFICATES will be available at the Auction Mart office following the sale. All sheep in the sale are Full Pedigree Registered.

THE SCRAPIE GENOTYPE results listed in this catalogue are guaranteed to be correct by the person whose name appears as the Vendor in the catalogue. Whilst the Society will make all possible effort to provide purchasers with the correct information, they can in no way be held responsible for any error or omission of information.

The breeding information, comments and photographs for sheep in this catalogue have been supplied by the vendors. While every effort has been made, the Society cannot be held responsible for any inaccuracies or omissions.

This year we are bringing 6 of our best shearling ewes and 2 high index ewe lambs. We have more shearlings to sell from home and several more very high index ewe lambs available if you are unsuccessful at the sale.

The shearlings are by 4 different sires, Brettles Tintin, Dalby Triple Threat, Rainbow Road to Utopia and Dalby Rumpole. This year's ewe lambs are by Triple Threat and a new addition, Edstaston Vancouver.

We started our flock in 1989 and have been producing commercial rams and ram lambs for sale locally ever since. We have been committed to Signet recording for many years believing that you must measure and record to know whether you are making progress. By using top index sires we have continued to improve our average indexes most years and for example our average lamb Terminal Sire index has gone up every year since 2012 rising from an index of 150 then to this year's lambs averaging 234.

We also have a pedigree and a commercial flock of Lleyn ewes and pedigree South Devon Cattle as well as a few Jacob ewes. Our service sires have to go out to work in the autumn on the commercial Lleys which gives us a good feel for the quality of cross bred lambs they produce.

All the sheep in our flock are ARR/ARR genotype and we only use ARR/ARR tested rams. Some of the shearlings and both ewe lambs have been tested as well to give buyers peace of mind.

Health Information - MV Accredited
Shearling Ewes - Toxovax vaccinated
Heptavac P+ vaccinated

SIRES OF THIS YEAR'S CONSIGNMENT

Rainbow Road to Utopia (16XPU02468)

Has been an outstanding ram for the Brettles flock including siring Brettles Sherman sold for 7,000gns at Worcester in 2017. Very high Growth EBV and excellent Gigot EBV, T.S.Index 255.

Dalby Rumpole (16PE04909) - He throws consistently correct sheep with very good eye muscle. T.S.Index 219

Dalby Triple Threat (18PE06851) - High index ram purchased at the Premier in 2018 (pictured left) when his full brother sold to 5,800gns. T.S.Index 289

Brettles Tintin (18WF02810) - Son of Rainbow Road to Utopia. Top 5% for CT lean meat yield and also top 5% for Gigot muscularity. (see picture!) T.S.Index 281

Edstaston Vancouver (20TG00955)
Purchased privately last year. Son of Knockin Shockin out of a Rainbow Santana ewe. T.S. Index 285

Entering our 8th Female with Figures sale shows how time flies and despite huge uncertainty elsewhere, our sheep enterprise is returning some pleasing margins for fat lambs and geld ewes.

Our breeding ewes and rams have been in demand and it is worth noting how spread out the ram sales from farm last year were, with the first rams sold in June 2020 and the last in January 2021.

Our genetic gain has enabled us to move lambing back into January which makes better use of our home grown whole crop and roots whilst still providing commercial lambs for the Easter market.

With challenges from vegetarians and their manipulation of the global warming science to benefit their aims for a meat free world, it is worth noting that the science behind performance recording is robust and delivers a metric that can be used for tackling their claims.

Research done at Cranfield eight years ago suggested that the Global Warming Potential was 0! However, this number could be reduced by a factor of 8 to -8 by using performance recorded rams on the UK ewe flock!

Health Information

All sheep have been vaccinated during March/April/May with Toxovax, Enzovax, and Campyvax as we are strong believers in prevention is better than cure.

All sheep are in the Heptavac P+ system and were wormed with Zolvix during May.

Scrapie genotypes will be available on sale day and pictures will be posted on social media shortly after the catalogue is published.

SIRE INFORMATION

Rainbow Marmaduke - 12XPU01250 – (picture courtesy of Lionel & Jenny Organ)

An outstanding ram who in retrospect we should not have sold! At Tymaen he had daughters that sold to 2,000gns. With an eye muscle area EBV in the Top 1%, Muscle depth EBV in Top 5% he has been an excellent outcross on our ewes and proves that great EBVs stand the test of time!

Rainbow Vid – 20XPU04040 - A huge ram with deep gigots, ET son of “Rainbow Road to Utopia” from Ringclare Riannoch top priced ewe at the 40th Anniversary sale. This

hard fleshed ram, has an impressive crop of lambs this year. Unfortunately due to Covid restrictions we weren't able to CT scan him. He has scan weight EBV within the Top 1% of the breed. Unfortunately no longer with us the two daughters on offer for sale today are definitely unique.

Ringclare Riannoch purchased for 3,000gns

Hundalee Volcano – 20XMP04415 - Purchased jointly with the Redhill & Lowerye flocks from the 2020 Premier sale, Volcano has an overall index within the Top 1%. We are really pleased with his first crop of lambs.

We are glad to be asked to join the Females with Figures sale again. We have put forward 4 shearling ewes and 2 ewe lambs.

We have been very selective over the years and ended up with 20 very good breeding ewes, consistently breeding good quality, good skinned sheep, with many purchasers coming back to buy again.

The females we are selling are by:

Dudston Jasper (15YBZ00211)

He is by Edstaston Normandy (13TG00253) and we have retained many females by him.

Knockin Umptious (19XXJ00631)

He is by Oakchurch Ruben (16WKW00152). Ruben was sired by Knockin Shockin (17XXJ00376). Shockin sold for 25,000gns and he is producing the type of sheep that we are very pleased with.

I am pleased to be invited back for a second year at females with figures, since establishing the flock in 2016. Putting forward 6 strong yearlings which show all the desired characteristics of the Charollais breed; shape, sharpness and great skins. I have no doubt this group will excel in any flock.

Majority of the ewes are sired by **EDSTASTON TRIP ADVISOR** (pictured below) a big powerful ram with style and a big backend, who was purchased from the premier sale in 2018 for 2,200gns.

I look forward to attending the sale and seeing fellow breeders again.

Health Information

MV accredited, Scrapie monitored, Signet recorded. ENZO/TOXO vaccinated and are on the Heptavac P system.

Sire Information

19TZ02596 - Sire of Lot 2 who was purchased privately as a lamb, with a whopping top index is 349. He has certainly put his stamp on the flock with some meaty, stylish lambs coming through this year with index's to follow.

19VW00719 CAVICK UNBELIEVABLE GEOFF - sire of Lot 5, again who is a strong, correct ram, who's dam is the show winning DALBY ROSE.
