WORCESTER PREMIER SALE

We will be back in force at Worcester Market this year with a terrific entry of rams and shearling ewes from the very best flocks in the UK and Northern Ireland. We are all hoping that the June relaxation of Covid rules will come into force; but please do adhere to any measures that are required by the market at the time.

We will carry out inspection and have show classes on Friday afternoon and we welcome Robert Towers from Lancashire as our judge.

This is the sale that all breeders should either come along to or view via the live streaming (and bidding) facility. If you are looking for a new stock ram then Worcester is the venue. All rams are scrapie genotype tested ARR/ARR and full pedigree registered rams. So no extra costs and procedures to do before putting your ram to work. Plus a tremendous choice from 50 flocks in one central venue.

The Live Bidding system will be running for you to view and buy from the comfort of your own home, if you are not able to get to the market. Please make sure you have registered with McCartneys at least 24 hours before the sale.

We are sorry that we are not able to offer direct export from the market this year. This means that if you are a buyer from NORTHERN IRELAND or any EU Country you cannot move the sheep direct from the sale. We welcome you, but please remember that rams will have to return to the farm of origin for 60 days and females 30 days before they may be exported. Please speak with the vendor to check if they are willing to do this and what costs may be involved.

**Any queries about the sale then please contact the BCSS office or
James Amphlett at McCartneys.**

General Information

LOCATION - The sale will be held at Worcester Livestock Market, The Heath Meadow, Nunnery Way, Worcester.

MOVEMENT LICENSES - All vendors must hand in a completed General Movement License and also a current Sheep & Goat Health Scheme certificate. The market holding number is 17 521 8000-01. Intending purchasers should have their CPH number ready to complete the correct movement license before departure from the market.

MINIMUM SELLING PRICES - General minimum selling prices will apply to all sales held under the auspices of the British Charollais Sheep Society. The minimum selling prices for the Worcester Premier Sale are:- Empty Shearling Ewes - 500gns,
Rams, Senior/Shearling - 500 gns
Ram lambs - 400 gns

ALL FEMALES - offered for sale are warranted not to be in lamb. Should the situation arise that a ewe proves to have been in-lamb at the time of the sale, then If within fourteen weeks after the day of sale a female sheep warranted not in lamb as aforesaid proves to be in lamb and within sixteen weeks after the day of sale the purchaser gives to the auctioneers written notice supported by a certificate signed by a veterinary surgeon such female sheep has been proved to have been in lamb then if the sheep lambs naturally at a date which proves it to have been in lamb at the date of sale either the purchaser may return the sheep and her lamb if any to the Vendor or at the sole option of the Purchaser the Vendor shall pay to the Purchaser as and for ascertained and agreed liquidation damages to cover all expenses depreciation in value and other damages whatsoever a sum equal to 25% of the purchase price of the sheep.

INSPECTION - All sheep will be inspected by the Society's Official Inspector before being allowed forward for sale. All sheep must have been paint branded with their lot number prior to arrival at the market. Any sheep being rejected must be removed from their pens.

BIOSECURITY - Intending purchasers are requested to have livestock vehicles cleansed and disinfected. Vendors will be required to wash out their livestock vehicles after unloading.

SCRAPIE GENOTYPE RESULTS - All sheep in the sale have been tested to establish their scrapie genotype and are all Class 1 (ARR/ARR).

Whilst the Society will make all possible effort to provide purchasers with the correct information, they can in no way be held responsible for any error or omission of information. If breeders wish for more information on scrapie genotyping and their use within a breeding programme, they should contact the office.

MAEDI VISNA - All sheep are from Maedi Visna Accredited flocks. Prospective purchasers wishing to join the scheme should consult the Sheep & Goat Health Schemes, P.O. Box 5557, Inverness, IV2 4YT - Tel: 01463 411103 before the arrival of sheep onto their premises.

SCRAPIE MONITORED FLOCKS - A number of flocks in the sale are Scrapie Monitored, these are marked in the list of vendors. A reminder for Scrapie Monitored flocks if you wish to add sheep to your flock they either:

- must come from another SMS flock OR
- be tested ARR/ARR. Although all animals in the sale are ARR/ARR, some may require an additional blood test taken by a veterinary surgeon and the analysis completed by SAC in order to comply

PEDIGREE CERTIFICATES - Pedigree certificates together with certificates for scrapie genotype will be available from the Auctioneer's office on the day of the sale. All animals in the sale are Full Pedigree Registered.

SUBSTITUTE ENTRIES - Substitute entries may be offered for sale. A separate catalogue listing these animals will be available on sale day. Any such sheep will be marked with a red dot next to their lot number.

METHOD AND ORDER OF SALE - All stock will be sold in guineas (105 pence) and strictly in catalogue order unless any alteration is announced by the auctioneers.

CONDITIONS OF SALE - The Sale is held subject to the Society's Auction Rules and Conditions of Sale and to the Auctioneer's General Conditions of Sale.

COMMISSIONS - The Auctioneers will faithfully execute commissions to purchase for buyers unable to attend the sale in person, upon receipt of instructions in writing delivered to their offices 48 hours in advance of the sale.

SETTLEMENT & CLEARANCE OF STOCK - Settlement in full is due to the market auctioneers, Messrs McCartneys Ltd, immediately at the close of sale.

SEMEN - Ownership of all semen rights shall be deemed to pass to the new owner. The vendor of a ram may elect to retain semen for their own use or for sale to a third party if this is stated in the sale catalogue and re-iterated by the auctioneer at the time of sale.

AWARDS - No prizes, rosettes or cards from any other shows to be displayed.

CONDITIONS OF ENTRY/INSPECTION - The inspection panel shall consider the points listed below. The Society's inspector is empowered to disbar any animal from the sale which does not comply with any of the matters contained in clauses 1 - 7. The inspector's decision shall be final and binding to all concerned and neither the inspector, the Society, nor the Auctioneers shall be liable to the owner of such animals or any other person or company for damage or for any loss arising out of such rejection.

- That the animal's identification is as required by legislation and the Society and corresponds to the ear number as entered for sale. Animals without the correct identification will be rejected from the sale.
- The animal is not suffering from any infectious or contagious disease.
- All rams must have two adequately sized testicles of approximately the same size and normal consistency.
- That the animal is of a quality commensurate with the level set by the Society and is of adequate weight for the age and shows no malformation in structure.
- The teeth are in the correct position. Account will be taken of the age of the animal.
- There is no abnormal deviation in the structure of feet and/or legs.
- Ewes shall be sound in udder.

Inspection is a condition of entry of the Society and compliance with this inspection shall in no way form a guarantee to the purchaser of the animals so inspected.

FERTILITY GUARANTEES - RAMS & RAM LAMBS

(i) All rams and ram lambs are warranted by the seller capable of natural and effective service within four calendar months from the date of the sale. In the case of Worcester Premier Sale, this warranty is extended to four months. If at the expiry (the male fertility guarantee period) the ram or ram lamb has failed to prove himself capable of natural and effective service and a veterinary surgeon's certificate is lodged within 14 days from the date of expiry of the male fertility guarantee period with the auctioneers specifying that the ram is so incapable and further that the veterinary surgeon has inspected the buyer's breeding ewes and found them to be in normal responsible breeding condition

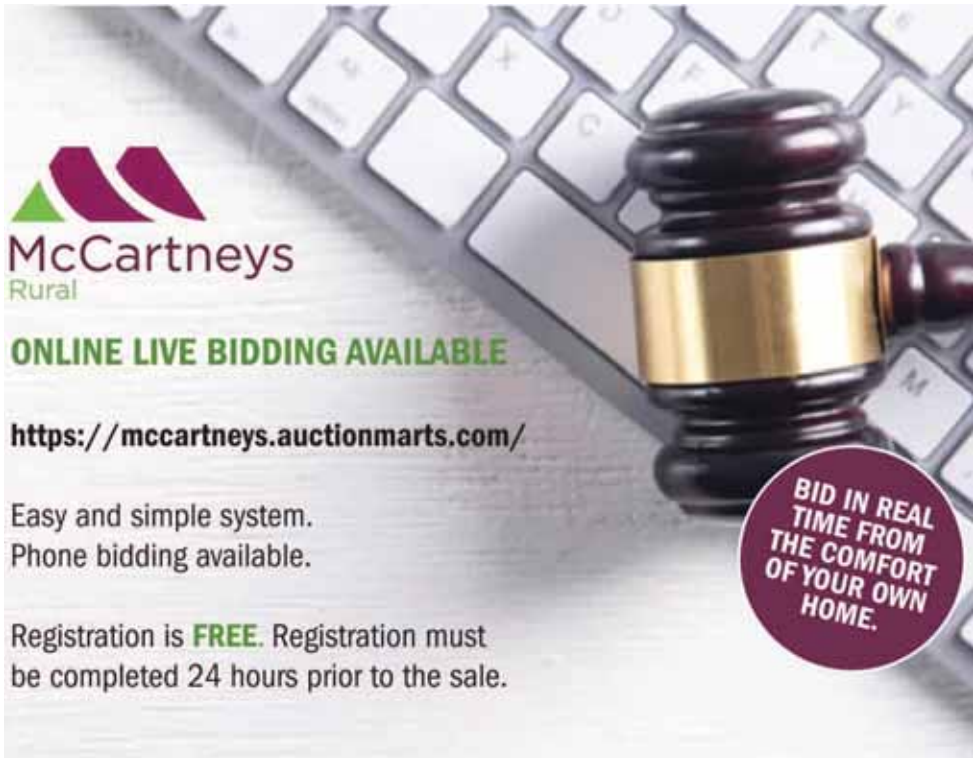

and not in the aforementioned incapacity then the buyer may return the animal to the seller.

(ii) The animal shall be deemed incapable of natural and effective service if it fails to make at least one ewe pregnant during the male guarantee period under natural breeding conditions and is so certified as being incapable by veterinary surgeons certificate aforementioned. The Society recommends that the veterinary surgeon follows the "Guidelines on the examination of rams for breeding" and also the "SVS Examination Certificate" as issued by the sheep Veterinary Society.

(iii) The buyer shall throughout the male guarantee period give the animal full and sufficient opportunity to prove that he is capable of natural and effective service.

(iv) Ewes which have been "sponged" and or treated with hormone treatment to induce or synchronise ovulation shall not for the purpose of this guarantee be "in normal condition".

Members and all those handling sheep are reminded of the need to act responsibly and with animal welfare in mind whenever handling sheep. With many Society events now being streamed live or filmed for later publication it is important that Society members take care to ensure they present a responsible and ethical image of the sheep industry at all times. Of particular note is the handling of sheep in show and sale rings and the use of crooks to display sheep in sale rings at major sales. The use of crooks is at the owner's discretion, but should only be done to aid the movement of sheep around the sale ring and to showcase the animal. Excessive use of crooks to push or beat sheep is to be avoided

The background of the advertisement is a close-up photograph of a computer keyboard. A wooden gavel with a gold-colored band around its head is positioned diagonally across the right side of the image. The McCartneys Rural logo, consisting of a stylized 'M' in green and purple, is in the top left corner.

SINGLE-ET 01/12/2019

Sire: Loanhead Triathlon (18WNC22705) **SS:** Rhaeadr Orlando (14XXK01077)
Dam: Foxhill Charollais (18XWY00514) **DS:** Logie Durno Olympian (14ZNN09818)
The first female ever offered from Foxhill. What an eye catching gimmer she is! Great fleshing throughout and a tremendous skin. The dam is the best breeding female out of 14XWY00375, who bred Va Va Voom who sold for 16,000gns. Very correct breeder's sheep.

Ram Lambs

MR DAVID JERMAN (TRANNON)

The dams of these lambs are both daughters of 13WPV02043 who was dam of Panama (sold to M Power for 1,900gns) whose twin sister 15WPV03002 is dam of 21WPV08836 (Lot 48). This sire of the lambs is Edstaston Uncle Rob by Knockin Shockin. Uncle Rob's full brothers are Edstaston Tempranillo (sold for 5,800gns) Edstaston Tip Advisor (sold for 2,100gns) and also Edstaston Tulloch stock ram at the Dalby flock. Also Edstaston Uncle Rob's full sister 19TG00878 was sold for 1,250gns to D Miley.

First lamb to be sold from the 16,000gns Foxhill Va Va Voom and what cracker he is!! I've had a soft spot for this lamb for a long time! Tremendous skin and carcase and to top it off he is incredibly correct and stylish, always the first lamb to catch your eye in the field!

Dam is clipped out for showing this year and was one of a fantastic pair of Talisman ewe lambs that were shown as lambs, the sister was the first prize ewe lamb and Reserve female Champion at the Welsh.

Another lamb that's been a stand out for a long time. Sired by Logie Durno Upperclass who was used before selling at Worcester for 2,300gns last year. He has really clicked with some of our gimmers and has produced some great lambs for ourselves and some other flocks. Dam of this lamb is a gimmer from the super 9901 flush that had 7 lambs sold in 2019 to average £3,495 including Untouchable (Prem Champ 2019), Ultimatum (5,500gns), Umpire (RWAS Interbreed ram lamb) and also the top price ewe lamb Saucy Sale 2,800 to Cattlarch Flock.

MR & MRS M J ALFORD (FOXHILL CHAROLLAIS)

Loanhead Triathlon - Purchased privately from the Ingram family as a lamb. Triathlon has exceeded our expectations. Producing extremely hard and well fleshed animals throughout. Lambs sold to 16,000gns. **Thackwood U Corker** - Purchased at last year's sale for 4,600gns. We are extremely pleased with his offspring. Once again throwing tremendous fleshed animals with great skins. U Corker also adds the wow factor.

Rockvilla Ferrari was the top priced ram at the 2005 Worcester Premier Sale, selling for 6,000 gns to Crogham and Hyde Flocks. He breed consistently well giving outstanding females in both flocks and terrific rams including the legendary Crogham Hannibal II.

A January born lamb that's never looked back. Dam bred 16,000gns Va Va Voom. Another in the run out of the best ewe in the flock and this time by Olympian who always bred sheep with the most fantastic tops. This young lamb probably has the best carcass in the pen.

PAUL & OLIVER JAMES (DITTON)

Loanhead Unleashed - was bought Worcester Premier Sale for 3,000gns for his length and heavy fleshing and an index figure in the top 10%. His sire (*Cannahars Super Star*) sired *Talisman* and his dam was the mother of the champion shearling at Worcester and son of *Titan* who sold for 2,600gns to the Knockin flock. *Dalby Umanga* was purchased for his power and tight skin. He is son of *Edstaston Tulloch* and the same is *Dalby Legs Eleven* and goes back to the famous *Dalby Champagne* on the female side who has produced powerful white faced lambs. Terminal sire Index top 1%.

MR DEWI PRITCHARD EVANS (FFRWD)

The first four lambs this year, are sired by Dalby Veainu. A lamb purchased privately last year - an impressive ram who has power, width bone, backend and excellent skin. He has passed on these qualities to his progeny and is a very consistent breeder. To top this, he also has a decent index. The last lamb in the run is an ET Trannon Sid son out of the Parkgate ewe purchased at the Wedderburn dispersal sale.

HELPFUL TIPS ON CARE AND MANAGEMENT OF YOUR NEW RAMS

By Ian McDougall, MRCVS Farmgene

1. Try to buy your ram well in advance and quarantine on arrival.

Quarantine your ram(s) with a friend if a sole purchase, and with good access to shade and ventilation for 30 days. Where multiple rams are being quarantined, confine them for a day so they get to know each other without fighting. During the quarantine period you should:

- Treat for worms, scab and fluke, for details visit <https://www.scops.org.uk/internal-parasites/worms/quarantine-treatments/> and <https://www.scops.org.uk/internal-parasites/liver-fluke/fluke-quarantine/>
- Vaccinate – Heptavc P
- Foot rot – check feet and foot bath – Zinc Sulphate
- Crutch - in case he scours due to diet change
- Bolus – Zinc, Cobalt, Iodine, Selenium
- Regulin - 2 pellets

2. Feeding

It is highly likely that your ram will have been heavily fed a concentrate diet therefore the microbes in his rumen will NOT be adapted to digesting grass so keep him on ram concentrate (contains ammonium chloride to minimize urolithiasis) but with access to pasture, slowly reduce the level of concentrates and taper to grass over a 4 week period. If your ram is out with ewes he will need to be fed some concentrates to avoid losing weight.

3. Semen Check

Semen quality of rams post sale can be variable due to the high level of pre-sale feeding and many ram lambs are transitioning through puberty at the time of sale. Soon after the sale rams

should have a reproductive soundness examination which will include a semen examination (semen collected via an artificial vagina if possible so you know he can serve ewes naturally AND a representative semen sample is obtained for examination). Freeze semen if it is deemed suitable but be aware that some 6-8 month old ram lamb semen can be sub fertile even though the ejaculate has good motility and a low percentage of abnormal spermatozoa.

4. Mating

If you are using your ram to mate naturally fit a harness or colour his brisket so you can monitor his serving progress and the success of his natural service. Ensure that he is supplemented with some concentrates, and has access to shade. If ewes are synchronised give him 5 ewes every second day. The number of ewes a ram lamb can cover in 30 days will vary enormously – from not many to 80 depending on the age of ram, semen quality, testicle size, time of year relative to ram's breeding season, ram condition score, ram mobility and age of ewes.

5. After mating

Once your new ram has completed his serving duties check him for brisket sores, harness chaffing, lameness, head wounds and treat with fly protection if required. Check body condition and if needed supplement with concentrates (0.5 kg / head) and provide access to good grazing. Rest him for 2-4 weeks then have semen collected and stored for insurance purposes. Upon returning from the AI Centre you can shear him and trim his feet if needed. Remember when introducing a new ram to your ram team, confine all the rams into a small area for a day so that they get to know each other without fighting. Remember to booster-vaccinate all rams twice a year.
