WORCESTER PREMIER

It's that time of the year again, for our flagship sale at Worcester Market and what an entry we have for you. Rams and shearling ewes from all the top flocks across the country, including 3 flocks from Northern Ireland.

Inspection and have show classes will be on Friday afternoon and we welcome Edward Buckley from Southern Ireland as our judge.

This is the sale that all breeders should either come along to or view via the live streaming and bidding facility. If you are looking for a new stock ram then Worcester is the venue. All rams are scrapie genotype tested ARR/ARR and full pedigree registered rams. So no extra costs and procedures to do before putting your ram to work. Many have also been DNA tested, in line with our requirements for 2023 lambs.

The Live Bidding system will be running for you to view and buy from the comfort of your own home, if you are not able to get to the market. Please make sure you have registered with McCartneys at least 24 hours before the sale.

We are sorry that we are not able to offer direct export from the market this year. This means that if you are a buyer from NORTHERN IRELAND or any EU Country you cannot move the sheep direct from the sale. We welcome you, but please remember that rams will have to return to the farm of origin for 60 days and females 30 days before they may be exported. Please speak with the vendor to check if they are willing to do this and what costs may be involved.

**Any queries about the sale then please contact the BCSS office
or Clive Roads and James Amphlett at McCartneys.

FERTILITY GUARANTEES - RAMS & RAM LAMBS

(i) All rams and ram lambs are warranted by the seller capable of natural and effective service within four calendar months from the date of the sale. In the case of Worcester Premier Sale, this warranty is extended to four months. If at the expiry (the male fertility guarantee period) the ram or ram lamb has failed to prove himself capable of natural and effective service and a veterinary surgeon's certificate is lodged within 14 days from the date of expiry of the male fertility guarantee period with the auctioneers specifying that the ram is so incapable and further that the veterinary surgeon has inspected the

buyer's breeding ewes and found them to be in normal responsible breeding condition and not in the aforementioned incapacity then the buyer may return the animal to the seller.

(ii) The animal shall be deemed incapable of natural and effective service if it fails to make at least one ewe pregnant during the male guarantee period under natural breeding conditions and is so certified as being incapable by veterinary surgeons certificate aforementioned. The Society recommends that the veterinary surgeon follows the "Guidelines on the examination of rams for breeding" and also the "SVS Examination Certificate" as issued by the sheep Veterinary Society.

(iii) The buyer shall during the male guarantee period give the animal full and sufficient opportunity to prove that he is capable of natural and effective service.

(iv) Ewes which have been "sponged" and or treated with hormone treatment to induce or synchronise ovulation shall not for the purpose of this guarantee be "in normal condition".

Members and all those handling sheep are reminded of the need to act responsibly and with animal welfare in mind whenever handling sheep. With many Society events now being streamed live or filmed for later publication it is important that Society members take care to ensure they present a responsible and ethical image of the sheep industry at all times. Of particular note is the handling of sheep in show and sale rings and the use of crooks to display sheep in sale rings at major sales. The use of crooks is at the owner's discretion, but should only be done to aid the movement of sheep around the sale ring and to showcase the animal. Excessive use of crooks to push or beat sheep is to be avoided

MR P A THOMAS (ARBRYN)

Loanhead Washington-21WNC37523

Washington was purchased at Worcester Premier last Year for 10,000gns. He impressed with his power & a tremendous hind quarter that is a must in our flock. He has transmitted these qualities to his progeny with tremendous growth & exceptional back ends.

He is a son of the 16,000 gns Foxhill VA VA Voom that was part of the winning interbreed pairs at the Royal Highland 2021. His dam is an exceptional daughter of Rhaeadr Orlando a tup that I always admired. The Ingram's describe Washington's dam to always be in good condition with a great carcase & milking like a dairy cow. Last year she bred Loanhead Vanquish to the Cavick flock that produced for them Cavick What a Boy selling for 15,000gns at the Premier. I am pleased to present these lambs from this consistently strong breeding line.
