EDSTASTON FLOCK "TG"

Where Charollais quality meets commercial power

After a lot of soul searching I decided to call it a day and sell the entire adult portion of the Edstaston flock. Ewe lambs to be sold next year.

This sale constitutes 40 years of breeding where there have been highs and lows – fortunately more highs than lows.

I have tried to breed ewes and rams that will flesh up naturally without needing too much hard feed and I think that now there is a consistency in the flock whereby all of the sheep will do a good job for you which comes from several years of careful breeding.

I have been very privileged to have owned some great sheep over the years and I like to think I have bred the odd good one as well.

We have made many friends over the last 40 years all over the world and we are very appreciative for all the help and guidance we have had from fellow breeders. It is with great reluctance that we are going ahead with this sale but I am sure the sheep won't let me down and they will go on and breed well for their new owners.

EXPORT

Unfortunately it does not look like export will be possible of live sheep from the sale – a problem that has severely hampered the business in the later years and the cause of a lot of frustration.

To date we have exported either live sheep, embryos and semen to the following countries:-

Holland, Belgium, Switzerland, Dominican Republic, Mexico, Canada, New Zealand, Hungary, Spain, Romania, France, Germany and Southern Ireland.

I have been approached by one or two to see if I would be prepared to look after some of the ewes and flush them for embryos for export and I am more than happy to do this as long as I don't have to lamb them.

Some of the stock rams that are jointly owned with Sercombe Sheep will still be available for semen collection and sales in the future.

VIEWING & TRANSPORT

Viewing Day with refreshments, 11 am - 4 pm Sunday 31st May.
If this date is not suitable for you, please contact Robert to arrange an alternative time.

Assistance will be given as to delivery of sheep after the sale.

HEALTH

All sheep have been vaccinated with Bultavo 3 on 10.03.2026. Batch No. 515432A. Expiry dated 03/27

Females have also been vaccinated against enzootic abortion and toxoplasmic abortion as yearlings.

All sheep have been dipped with a product for scab at the end of May.
All sheep have been inspected.

EDSTASTON NORMANDY

Very stylish homebred son of Glyn Coch Main Man 12XCA00232 who stood 3rd at the 2014 Royal Welsh Show. Dam was a daughter of Drumsallagh Jaguar OZWY9017. Normandy was used to great effect in New Zealand 2015/2016 and a few years later 5 of his sons were in the top 10 rams in New Zealand on performance.
