Tullyear Flock Introduction

Can hardly believe I am writing this, 40th Anniversary Sale, Where has that time gone?

1986 we bought our first ewes, one from the Broomhouses Flock of the Mackie family, Scotland and several French Imports. This Broomhouses line is still featuring in our Flock as you will see in the catalogue. Looking through old photographs and catalogues has brought back many memories of the friendships we have made within the Breed and the miles we have covered over the length and breadth of UK and Ireland all in the name of Charollais Sheep.

As Breeders we have always tried to source the best rams and females available to improve our Flock and this has been reflected in our many successes over the years. We have always tried to stay true to Charollais type whilst also adapting to market trends which has ensured that our sheep, both male and female, are much sought after. The continued growth of our home trade and repeat customers is a positive reflection of this.

The Females we have forward for this sale are the entire batch of this year's in-lamb hoggets plus 20 of our best ewe lambs. We are very pleased with them and hope you will be impressed as well.

All sheep entered have been Blue Tongue vaccinated
